U.S. Robotics  
Look –  
Same Great  
Modem!**

**Model 0839**  
**Sportster® External**  
**33.6 Faxmodem**

**Chosen by millions for small  
business, home office, and  
personal use**

Using a modem is easy in a corporate office with a staff of computer gurus on call whenever you have a question. It's tougher if you're home alone or in a small company with no on-site support.

We designed the Sportster External 33.6 Faxmodem for people who want their modems to work the first time, every time – people who have no time to learn complicated procedures. But we also built in all of the features an avid user could ask for, like simple Plug and Play installation, powerful controller-based processing, support for all major operating systems, and more.

No other modem brand offers the combination of feature-rich performance, value, and reliability of U.S. Robotics.

# Sportster® External 33.6 Faxmodem MODEL 0839

- Powerful processor built in
- Supports all major operating systems
- Includes easy-to-use software
- Simple Plug and Play installation

## Features & Benefits

**Advanced features and functionality** – The Sportster External 33.6 Faxmodem provides the kind of performance you've come to rely on from U.S. Robotics – fast and reliable connections, quality, and durability. Send and receive faxes through your computer while running other applications, send group and delayed faxes, and create personalized phonebooks for quicker dialing. Permanently store preferred modem default settings.

**Controller-based performance** – Built-in processing power handles the processing for your connection, so your computer doesn't have to do the work, and makes the most of graphic-intensive Web sites, online gaming, and streaming audio/video. In minutes, you're ready to surf the Web, check your e-mail, finish a hot project, chat online – all the things you want a modem for!

**Simple Plug and Play installation** – The easy-to-follow installation guide makes setup simple, and product settings are even printed on the bottom of the case, so you'll always have them when you need them. Your U.S. Robotics modem is so easy to install, you'll be up and running in no time!

**Easy to use software** – Included valuable software helps you explore the best features of your modem. And if you need a little extra assistance, help screens are available to give you the additional support that you need.

**Industry compatibility** – Compatible with most popular fax and communications software packages and supports the industry-standard AT command set.

**Business friendly** – Rugged design and reliability make the business-friendly Sportster External 33.6 Faxmodem the preferred modem of choice for point of sale/credit card verification systems. And the standardized code remains consistent, saving businesses time on retesting and recertification.

**Superior U.S. Robotics performance** – Decades of great modem engineering experience go into this U.S. Robotics modem, so you get the best Internet experience out of it.
