3CP992884A Eastern Europe and Middle East

56K* Voice Internal PCI

Includes V.90 56K standard

- **Enhanced Internet Experience**
- **Software Upgradable**
- **Voice Features**
- **Five-Year Limited Warranty**

Get the most from the Internet with the world's number 1 selling modem.

The U.S. Robotics 56K* Voice Internal PCI complies with the international V.90 56K ITU standard and allows you to download from the Internet at speeds up to 56Kbps for increased productivity and an enhanced Internet experience. With 56K you can get faster access to detailed web pages and spend less time finding important information online.

Easy software upgrades protect your investment. The 56K* Voice Internal PCI offers the flexibility to upgrade to new features and enhancements with a simple phone call and a few mouse clicks.

Professional fax and voicemail features turn your modem into a complete communications tool.

The 56K* Voice Internal PCI automatically detects whether an incoming call is voice, fax or data.

It allows you to send professional, laser-print quality faxes right from your computer. You can send faxes to a group as easily as to one person.

It includes a sophisticated voicemail system with multiple mailbox functionality and provides clients with information around the clock, completely unattended, with fax on demand.

The 56K* Voice Internal PCI also supports speakerphone and V.80 standard compatibility for video conferencing.

Benefit from new PCI technology
PCI is now the preferred standard of most operating systems and software vendors. Improved Plug&Play functionality is provided by the IRQ sharing and auto-configuration features.

Designed for Windows 95, 98, 2000 and NT 4.0

Data/Fax/Voice PCI internal Modem

World's #1 Selling Modem Brand

U.S. Robotics®

56K* Voice Internal PCI
