

TAOS Software Release Announcement

TAOS 10.0.3 for the MAX™ 3000, MAX™ 6000, MAX TNT®, APX 1000™ and APX 8000™ Platforms

April 18, 2003

Starting April 18, 2003, the TAOS 10.0.3 software for the MAX™ 3000, MAX™ 6000, MAX TNT®, APX 1000™ and APX 8000™ platforms will be made available to entitled users and customers.

Details on key enhancements delivered with TAOS 10.0.3 are available from the TAOS Software Release Notes available at: http://www.lucent.com/taos (product documentation section).

The TAOS 10.0.3 software files are available to entitled customers from the Lucent Online Customer Support website. Additional support may be obtained by contacting Lucent Worldwide Services local TAC personnel.

Software updates to the TAOS 10.0.3 software and subsequent releases for the MAX™ 3000, MAX™ 6000, MAX TNT®, APX 1000™ and APX 8000™ platforms are available exclusively through Lucent Worldwide Services as part of an annual support service contract (RTS Advantage). Lucent Worldwide Services can provide detailed pricing and feature information for the TAOS software support services.

Additional information about TAOS may be found in the TAOS pages available at: http://www.lucent.com/taos.

If you have any questions or comments about the TAOS 10.0.3 Software Release Notes, please send an email message to Technical Publications.
