

Model No. 000839-09

Sportster® External 33.6 Faxmodem

Key Benefits

Faster and easier to use than ever before. Faxing convenience and personalized dialing. Surf the Web, check e-mail, and send/receive faxes. Send group and delayed faxes. Personalized phonebook options make for quicker, more convenient dialing.

Easy Plug and Play installation. Installation is as easy as plugging your Sportster External 33.6 Faxmodem into your computer and phone line – you'll be surfing the Web in minutes.

Industry compatibility. Compatible with most popular fax and communications software packages and supports the industry-standard AT command set.

Includes U.S. Robotics Connections™ CD-ROM. The U.S. Robotics Connections CD-ROM provides tons of cool software to get the most from your modem.

The U.S. Robotics Sportster External 33.6 Faxmodem includes the features and functionality you've come to rely on – fast and reliable connections, quality, and durability. Send and receive faxes through your computer while running other applications, send group and delayed faxes, and create personalized phonebooks for quicker dialing. Permanently store preferred modem default settings and your four most-used phone numbers in memory. And the built-in speaker includes its own independent volume control.

You'll find that installation is a snap. Just plug it into your computer and phone line, and in minutes you're ready to surf the Web, check your e-mail, finish a hot

project, and join in a chat room for an online conversation – all the things you want a modem for! The easy-to-follow installation guide makes it simple, and product settings are even printed on bottom of case so you'll always have them when you need them.

The U.S. Robotics Connections CD-ROM adds a comprehensive selection of valuable software to help you explore the best features of your modem and of the Internet. And if you should need a little extra assistance, help screens are available to give you the additional support that you need.
