## Model **USR805410** 802.11g Wireless Turbo PC Card

Networking

### Features and Benefits

*Faster speed, greater compatibility, better security*

#### Exclusive 100 Mbps Accelerator Technology

Includes Accelerator Technology. Send and receive data at performance levels equivalent to **100 Mbps\*** – **all on a single channel** to ensure greater network capacity and the highest data throughput.

#### Greater 802.11g/b compatibility

Use the speed you purchased – **greater 802.11g/b compatibility** allows each device to connect at the fastest speed possible!

#### Superior security

Up to **10 times more secure** than standard wireless networks! Your data is secure with advanced features:

- **Built-in 256-bit Wired Equivalent Privacy (WEP)** encryption
- **WPA (Wi-Fi Protected Access)** protects your privacy and important data from hackers<sup>†</sup>
- 802.1x network authentication support

#### Low power consumption

Get the most from your laptop's battery and stay online longer.

#### Greater range

Wirelessly network with 30% greater range and better area coverage than conventional 54 Mbps wireless products\*.

#### Network management

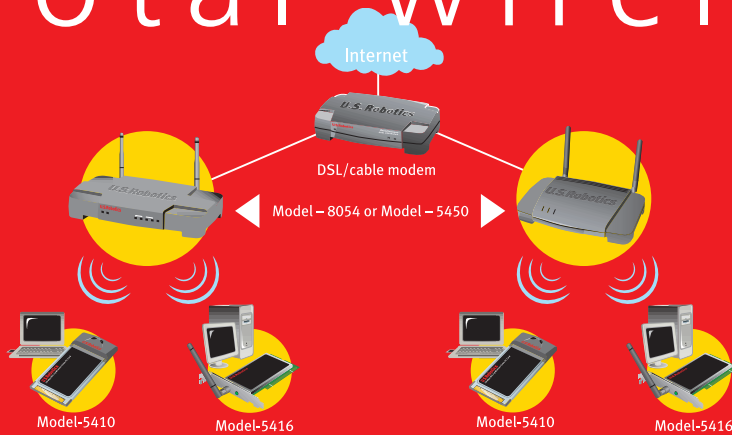

Included Site Survey feature makes finding the closest access point easy and simplifies wireless network configuration.

Best Networking Manufacturer

# Ready. Set. Connect.™

# Total wireless solution

U.S. Robotics 802.11g Wireless Turbo networking products offer a total solution. Our simple to install portfolio is sure to meet your particular networking needs.

## Standards and Specifications

### Security Features

- 64/128/256-bit Wired Equivalent Privacy (WEP) encryption
- Disable broadcast SSID
- 802.1x network authentication support
- Wi-Fi Protected Access (WPA)<sup>†</sup>

### Modulation Types

- BPSK, QPSK, CCK, PBCC, and OFDM

### Radio

- Complies with IEEE 802.11g 54 Mbps wireless standard

### RF Output Power

- +16 ~ 18 dBm

### Frequency Band

- 2400 ~ 2462 MHz FCC Regulations for North America
- 2400 ~ 2472 MHz for Europe

### Operating Channels

- 11 channels for North America
- 13 channels for Europe

### Radio Technology

- Direct Sequence Spread Spectrum (DSSS)

### Data Rates

- 1, 2, 5.5, 6, 11, 12, 22, 24, 36, 48, 54 Mbps with auto-fallback\*

### Minimum System Requirements

- PC with Pentium processor or equivalent, 100 MHz or faster
- 64 MB RAM (or greater as recommended by your operating system)
- 500K available hard disk space for utility and driver installation
- Available PC Card CardBus Type II slot
- Windows 98SE/Me/2000/XP operating system
- CD-ROM drive

### General Wireless Networking Requirements

- Internet access for Web sharing – active Internet connection and Internet Service Provider (ISP) account<sup>‡</sup>
- For 100 Mbps wireless networking – computer with 100 Mbps 802.11g wireless adapter/access point/router

- For 22 Mbps or 11 Mbps wireless networking – computer with 22 Mbps or 11 Mbps 802.11b wireless adapter/access point/router

### Regulatory/Agency Approvals

- FCC approved (Part 15 Class B)
- IC approved (RSS-210)
- UL/CUL listed
- CE<sup>®</sup>

### Environmental Specifications

- Temperature Range
  - Operating: 32° - + 131° F (0° - +55° C) (Except RF output power and sensitivity)
  - Storage: -4° - + 158° F (-20° - +70° C)
- Humidity
  - Storage: 5% to 95% Non-condensing

### Package Contents

- U.S. Robotics 802.11g Wireless Turbo PC Card
- Quick Installation Guide
- Installation CD-ROM

### Package Dimensions/Weight

- Dimensions
  - Length 9.87 in. (25.07 cm)
  - Width 2.06 in. (5.23 cm)
  - Height 6.31 in. (16.03 cm)
- Weight
  - 0.6 lb (0.27 kg)

### Product Dimensions/Weight

- Dimensions
  - Length 4.49 in. (11.4 cm)
  - Width 2.09 in. (5.32 cm)
  - Height 0.2 in. (0.5 cm)
- Weight
  - 0.2 lb (0.09 kg)

### Warranty

- Two-year limited manufacturer warranty from date of purchase

For details, see [www.usr.com](http://www.usr.com)

### Model Number

- USR805410 – 802.11g Wireless Turbo PC Card

- 802.11g Wireless Turbo Router – Model 8054
- Ideal for sharing high-speed Internet access among multiple computers<sup>†</sup>
- Includes built-in MAC address authentication

- 802.11g Wireless Turbo Multi-Function Access Point – Model 5450
- Ideal for bridging wired and wireless networks
- Includes multiple operational modes for a customizable solution

- 802.11g Wireless Turbo PCI Adapter – Model 5416
- Ideal for desktop computers
- Detachable antenna is easily upgradable for enhanced performance

- 802.11g Wireless Turbo PC Card – Model 5410
- Ideal for laptop computers
- Low power consumption

\* Capable of data throughput rates equivalent to 100 Mbps performance. Actual performance may vary depending on operating environment and distance between networked computers.

<sup>†</sup> Wi-Fi Protected Access (WPA) will be supported upon ratification.

<sup>‡</sup> Internet sharing requires a router. Some Internet Service Providers (ISPs) may have additional requirements, may not allow Internet sharing, and/or may charge additional service fees.
