

MODEL 5500

WIRELESS BLUETOOTH KEYBOARD

TABLET ACCESSORIES

FOR TABLETS, PCs, SMARTPHONES, GAMING SYSTEMS, HOME THEATER PCs

The USRobotics Wireless Bluetooth Keyboard is the ideal accessory for home and business users with tablets or tricky typing systems. The keyboard supports most tablets including the iPad, Xoom, Galaxy Tab, and Playbook but also works with all major systems with Bluetooth support — including Playstation 3, Windows, Macintosh, and Linux. Type more comfortably, and likely more quickly, with this full size qwerty keyboard and stop hunting and pecking on the virtual ones. With additional multimedia function keys control music or videos remotely, pause a video or mute the volume, all without leaving a fingerprint on the screen. This high quality Bluetooth keyboard with soft clicking keys is the perfect wireless accessory to any device.

USRobotics®

Real keyboard, real typing

Bluetooth Connections

- Works with most Bluetooth compatible devices
- Easy wireless pairing
- Great range with Bluetooth - up to 32 feet once paired

Excellent Design

- Qwerty 78 key ANSI design
- Space saving design - smaller than most full-size keyboards
- Full size keys allow comfortable and ergonomic typing
- Scissor-Switch keypad design provides tactile feedback - soft clicks confirm each keystroke
- Conserve battery life with built in intelligent power management - automatically powers on from sleep mode when you start typing

iDevice, Multimedia, and Volume Keys

- Easily switch between virtual and bluetooth keyboards with the iDevice[†] Keyboard key
- iDevice Spotlight search key allows easy access for quick searches without the need to touch the screen
- Quickly lock and unlock the device without the need to touch the screen with the iDevice Screen lock key
- Additional iDevice keys include Home, Picture Frame and Backlight Toggle
- Easily play, pause, or skip songs with Multimedia keys on most systems
- Easily control volume with increase, decrease, and mute with Volume keys on most systems

Easy Install
