

Includes **V.90** 56K standard and x2™ technology

56K* Professional Message Modem

- **Enhanced Internet Experience**
- **Independent Message management**
- **Receive voice and fax messages when your computer is switched off**
- **One-touch voice message playback**
- **Flash ROM for easy software upgrades**
- **Lifetime limited warranty**

The U.S. Robotics® 56K* Professional Message Modem is a complete communications centre for the office or home. Packed with the communications features you need to stay in touch, 56K* Professional Message Modem gives you the fastest in analogue Internet access and a full suite of professional voice messaging and fax options, including a high-quality hands-free speakerphone and instant playback of your voice messages at the touch of a button.

Faster Internet access!

To get the most out of the Internet, you need the fastest downloads possible over analogue phone lines. 56K* Professional Message Modem offers the latest in analogue speeds: **V.90**, the new international 56K* standard from the ITU, as well as x2™ technology from 3Com. Together, these standards offer complete compatibility with more Internet and Online Service Providers. So you'll be able to surf the Web at unparalleled speeds. And faster means cheaper – by allowing faster access to your information, 56K* can let you save money on your phone bills!

Receive faxes and voice messages anytime, anywhere - you don't even have to switch on your computer!

Why close the office when you switch off your PC? 56K* Professional Message Modem's 2 Mb of in-built memory lets you receive voice messages and faxes

anytime, whether your computer is switched on or off. You can receive up to 20 minutes of voice messages or around 50 fax pages, or any combination of the two.

One-touch voice message playback

Play back your voice messages at the touch of a button – no waiting for your computer to boot, no need for external speakers or sound cards. 56K* Professional Message Modem's high quality voice speaker gives you crystal-clear sound quality with full volume control. Stay in touch, with 3Com U.S. Robotics!

Easy software upgrades

Investing in 3Com U.S. Robotics® technology is an investment in the future! 56K* Professional Message Modem's in-built Flash ROM memory lets you download new features and enhancements as they become available. Just a simple phone call and a few mouse clicks, and you'll be up to date with the latest in analogue technology.

No. 1 selling modem in the world!

Years of experience developing today's modem technology backs up every 3Com U.S. Robotics® modem. That is why millions of people all over the world choose our brand.

Includes V.90 56K standard and x2™ technology

56K* Professional Message Modem

Professional fax features

You can send professional, laser-print quality faxes right from your computer with 56K* Professional Message Modem. Fax to a group as easily as to one person, and never miss faxes or voice messages – your pager can notify you when new messages arrive, and remote message retrieval lets you listen to your messages and download faxes wherever you are.

Speakerphone, voicemail, and fax on demand

56K* Professional Message Modem's in-built voice-quality speaker turns your computer into a full-duplex, hands-free telephone. There's no need for external speakers, microphones or sound cards. You can create a sophisticated voicemail system with single or multiple mailboxes, and provide clients with round-the-clock information – completely unattended – with fax on demand.

A complete suite of Internet-ready software to fax, e-mail and cruise the Web!

56K* Professional Message Modem comes complete with all the Windows® compatible voice, fax and data software you'll need. We've even included free trial access to the Internet with special offers from the top Internet and Online Service Providers.
