

The U.S. Robotics 56k Fax Modem is designed to be easy to install and use, yet loaded with the features demanded most. It includes the latest V.92 technology for faster uploads (great for on-line gaming, posting digital photos, sending e-mail with large attachments, etc.), faster connections and a host of enhanced telephony capabilities.

U.S. Robotics®

Fast **fun** surfing the Internet

V.92 Technology

- Supports the latest V.92 standard – As well as V.90 for a wider choice of service providers
- V.92 allows you to send e-mail attachments faster – V.PCM Upstream allows for faster upload speeds
- Modem on hold lets you take calls while online without dropping your Internet connection
- Quick connect lets you establish your connection faster
- Don't miss that important phone call – U.S. Robotics Internet Call Notification (ICN) lets you screen incoming calls so you can take the important ones.*
