10/100 Ethernet PCMCIA Card

Network Your Laptop PC

Networking

Finally, technology that works with me, not against me

U.S. Robotics makes networking easy. Make the most of the PCs in your home or office and of the broadband Internet access connecting you to the world with the U.S. Robotics 10/100 Ethernet PCMCIA Card.

Use your laptop PC card to access other PCs on your network, to retrieve data files, compete in multi-player games, share music, and utilize printers and other network devices.

And by adding a U.S. Robotics router, you can share your existing cable, DSL, or satellite broadband Internet access with all of your PCs.
