

USB 3.0 CABLES

STANDARD, MICRO, AND EXTENSION CABLES

The USRobotics USB 3.0 Cables connect Super Speed peripherals like USB 3.0 external hard drives, digital video cameras, and high-resolution webcams to USB 3.0 hubs, ports, and adapters. The blazing fast 5 Gbps transfer rate is up to 10 times faster than USB 2.0 (480 Mbps). The USB 3.0 A Male connector is backward compatible, so while the cables is capable of Super Speed transfers, it also supports USB 2.0 and USB 1.1 speeds. The Extension Cable allows an additional 6 feet of cable when the provided cable length just isn't enough.
