I can stay connected wherever I take my laptop

Model 0756-CB
56K* PC Card Modem

Model 0756-XJ
56K* PC Card Modem with
XJACK® Connector

Model 3056A
56K* PC Card Winmodem
with XJACK® Connector

Versatile, reliable laptop connectivity

U.S. Robotics offers superior performance that plugs directly into your laptop computer.

The 56K PC Card Winmodem with XJACK Connector (model 3056A) makes connections easy with the convenient and durable pop-out XJACK connector. The 56K PC Card Modem (model 0756-CB) and 56K PC Card Modem with XJACK Connector (model 0756-XJ) include powerful controller-based processing and exclusive JetSetter global configurator for use in multiple countries.

No other modem brand offers the combination of feature-rich performance, value, and reliability of U.S. Robotics.

- Advanced Line Probing technology
- Hot swappable simplicity
- Digital Line Guard protection

Features & Benefits

Advanced Line Probing technology – Finds the “potholes” in the path between your modem and your Internet Service Provider – the obstacles that slow down your connection – and tells your provider’s equipment how to adjust its signal to avoid those obstacles to ensure that you connect at the highest speed possible.

Faster connections – While other 56K modems “shift down” to lower connect speeds when operating on troublesome lines, U.S. Robotics 56K PC Card modems “shift up” at the first available opportunity to always provide you with the fastest connection possible.

Powerful processing built in – Controller-based modem handles the processing for your connection, so your computer doesn’t have to do the work. Built-in processing power makes the most of graphic-intensive Web sites, online gaming, and streaming audio/video. (Available on models 0756-CB and 0756-XJ.)

Convenient XJACK connector – Exclusive XJACK connector makes getting connected easy: Slide in the PC Card, pop out the XJACK connector, and plug in the phone cord. The XJACK connector lights to show connection status: flashes when dialing and remains on when an Internet connection is made. (Available on models 0756-XJ and 3056A.)

Exclusive JetSetter global configurator – Makes it easy to configure your modem by region or country. (Available on models 0756-CB and 0756-XJ.)

Digital Line Guard protection – Protects your modem from potentially dangerous phone lines.

Hot swappable simplicity – Hot swappable design lets you switch PC Cards without rebooting.

Included software turns your computer into a feature-rich fax machine – Send faxes from any Windows application, and receive incoming faxes at any time.

Superior quality and reliability – U.S. Robotics quality and reliability work to keep you connected, whether it be from the office, your home, or while you’re on the road. Don’t let your business settle for less.

Standards and Protocols Supported

- V.90 56 Kbps ITU standard
- V.34 33.6 Kbps ITU standard
- Compatible with ITU and Bell standards from 56 Kbps down to 1200 bps
- V.42bis/MNP5 data compression
- V.42/MNP2-4 error control
- Faxing: 0756-CB/0756-XJ – Class 1 and 2.0 Group III send and receive
3056A – Class 1 Group III send and receive

Minimum System Requirements

0756-CB – 56K PC Card Modem

0756-XJ – 56K PC Card Modem with XJACK Connector

- IBM compatible laptop PC with a PC Card slot running Windows 95/98/Me/NT 4.0/2000/XP, DOS, or Linux operating system

- 486DX or Pentium processor or equivalent
- Analog phone line
- V.90 requires a V.90 56K ITU standard capable service provider and compatible 56K analog phone line
- CD-ROM drive
- Installation CD-ROM requires Windows 95/98/Me/NT 4.0/2000/XP operating system

3056A – 56K PC Card Winmodem with XJACK Connector

- IBM compatible laptop PC with a PC Card slot running Windows 95/98/Me/2000/XP operating system
- 166 MHz processor or equivalent
- Analog phone line
- V.90 requires a V.90 56K ITU standard capable service provider and compatible 56K analog phone line
- CD-ROM drive

Regulatory/Agency Approvals

- FCC approved (Part 15, Class B/Part 68)
- IC approved (ICES-003/CS-03)
- UL/CUL listed

Package Contents
