Three New RAS Solutions  
from Digi...

Digi's new RAS products prove the value of server-based applications and extend the capabilities of Digi's existing DataFire® and AccelePort® lines. These powerful new products provide the highest density at the lowest price per port on the market. Our new integrated modem adapters include:

- **DataFire RAS™ 48:**  
Up to 48 integrated modems with PRI or T1 connectivity.
- **DataFire RAS™ 4:**  
8 integrated modems with 4 BRI or analog connections.
- **AccelePort RAS™ 8:**  
8 integrated modems with 8 analog connections.
